

Time	Monday July 9th	Tuesday July 10th	Wednesday July 11th	Thursday July 12th
09:00				
09:05				
09:10				
09:15				
09:20				
09:25				
09:30		Sofia Calero - Universidad Pablo de Olavide - TBC	Tina Nenoff - Sandia National Laboratory - TBC	David Fairen-Jimenez - University of Cambridge - TBC - RSC BARRER AWARD LECTURE
09:35				
09:40				
09:45				
09:50				
09:55				
10:00				
10:05				
10:10		Aqeel Al-Ani - Keele University - "Surfactant-Templated Mesoporosity in Zeolite Crystal"	Lubomira Toseva - Manchester Metropolitan University - "Antimicrobial potential of ZnO@ZIF-8 against catheter-associated pathogens"	Susan Henkels - University of St Andrews - "Unravelling the ADOR Mechanism of Ge-LTL through ex situ Powder X-ray Diffraction and Solid-state NMR"
10:15				
10:20				
10:25				
10:30				
10:35		Coffee	Coffee	Coffee
10:40				
10:45				
10:50				
10:55	Arrival and Registration			
11:00				
11:05		Misbah Sarwar - Johnson Matthey - "A combined Quasielastic Neutron Scattering (QENS) and Molecular Dynamics (MD) Study of Diffusion in Zeolites"	Darren Broom - Hiden Isochema - TBC	Mian Hussain - University of Exeter - "MOF Derivatives for Visible-Light-Driven Photocatalytic Applications"
11:10				
11:15				
11:20				
11:25				
11:30				
11:35		Stefan Nastase - Cardiff University - "Computational QM/MM studies of the Methanol to Hydrocarbons process on zeolites H-Y and H-ZSM-5"	Samantha Russell - University of St Andrews - "Biomedical Applications of Nitric Oxide Producing Zeolite Catalysts"	Rachel Fletcher - University College London - "Heterogeneity and homogeneity in the distribution of framework aluminium in zeolites"
11:40				
11:45				
11:50				
11:55				
12:00				Closing Remarks
12:05				
12:10				
12:15				
12:20	Lunch	Lunch	Lunch	Lunch
12:25				
12:30				
12:35				
12:40				
12:45				
12:50				
12:55				
13:00	Introduction and Opening Remarks			
13:05				
13:10				
13:15				
13:20		Freek Kaptejin - TU Delft - "Engineering selective and stable MTO catalysts"	Invited Speaker - TBC	
13:25				
13:30				
13:35				
13:40	Giulia Bignami - University of St Andrews - "Exploiting Isotopic Enrichment to Understand Microporous Solids" FOUNDER'S AWARD LECTURE			
13:45				
13:50				
13:55				
14:00				
14:05		Leo Follac - Cape Peninsula University of Technology - "Performance of zeolite ZSM-5 synthesised from South African fly ash in the conversion of methanol to hydrocarbons"	Juvet Shabani - Cape Peninsula University of Technology - "Synthesis of hydroxy sodalite and zeolite X from coal fly ash for biodiesel production"	
14:10				
14:15				
14:20				
14:25	Edyta Tabor - J. Heyrovský Institute of Physical Chemistry of the CAS - "Bio-inspired binuclear transition metal ion complexes in zeolites centers for active oxygen formation"			
14:30				
14:35				
14:40				
14:45			Coffee	
14:50				
14:55	Peyman Moghadam - University of Cambridge - "The Role of High-throughput Computational Screening in Materials Discovery"			
15:00				
15:05				
15:10				
15:15				
15:20				
15:25				
15:30				
15:35				
15:40				
15:45				
15:50				
15:55				
16:00	Santhosh Matam - University College London - "Room temperature methoxylation in zeolite ZSM-5: An operando DRIFTS/Mass spectrometric study"			
16:05				
16:10				
16:15				
16:20				
16:25				
16:30				
16:35	Ryan George - University of Birmingham - "Synthesis and ion exchange properties of zirconogermanates"			
16:40				
16:45				
16:50				
16:55				
17:00				
17:05				
17:10				
17:15				
17:20				
17:25				
17:30				
17:35				
17:40				
17:45				
17:50				
17:55				
18:00				
18:05	Poster Session			
18:10				
18:15				
18:20				
18:25				
18:30				
18:35				
18:40				
18:45				
18:50				
18:55				
19:00				
19:05				
19:10				
19:15				
19:20				
19:25				
19:30				
19:35				
19:40				
19:45				
19:50				
19:55				
20:00				
20:05				
20:10				
20:15				
20:20				
20:25				
20:30				
20:35				
20:40				
20:45				
20:50				
20:55				
21:00				Conference Dinner
